

WISH LIST

StreetLightUSA is a residential center where girls 11-17 are provided a safe haven to start on the road to healing and independence. Like all homes, our cottages need constant replacement of household items. With so many girls rotating in and out during the year, the need for community support is great. We would be most appreciative if you selected any item from our list below. Thank you for your thoughtfulness, your generosity and your kindness. Please know your gifts make the girls' journey from trauma to triumph a little easier!
